Conditions for disposal of asbestos

1. Disposals will only be accepted between the hours of 7.30 am and 1.00pm. It should be noted that disposals cannot be undertaken on any weekend or public holidays. 48 hours notice required.
2. No assistance is available from on-site personnel it is your responsibility.
3. You cannot transport more than 175kg of Asbestos or Asbestos contaminated material without a waste transport certificate.
4. The disposal of regulated waste under this consent is required to be supervised by an officer authorised by Council. Whilst some flexibility is possible in the disposal date and time, the applicant should ensure that any changes to the disposal arrangements are discussed with the Council's Waste Management Team.
5. Customers will be refused entry if deemed by the Landfill Operator to be improperly attired for safety at the tipping face. Customers must have the following clothing for personal protection: **thick soled boots, high visibility shirt or vest, and eye protection.** Customers must follow onsite instructions by the Landfill Operator for safe disposal of the asbestos load.

Bagged asbestos waste

All asbestos must be collected in heavy-duty polyethylene bags with a minimum thickness of 0.2 mm and filled to no more than 50% capacity. Maximum bag size 1200 mm (length) x 900 mm (width) must be observed.
The asbestos waste is to be sprayed with a sealant or wet with water prior to bagging.

Each bag must have affixed, to the exterior, a notice stating: **ASBESTOS**

Wrapped asbestos waste

Solid asbestos sheet wastes in polyethylene sheeting must have the polyethylene sheeting wrapped and sealed around the asbestos waste in appropriate sized bundles for disposal.

Wrapped bundles must have a maximum size 2400 mm (length) x 900 mm (width).

Should polyethylene sheeting be used less than 0.2 mm in thickness, then each bundle will be required to be double wrapped to contain the waste.

The asbestos waste is to be sprayed with a sealant or wet with water prior to wrapping.
